So why drive for anyone else?

Don't take our word for it. . . Here's what our drivers have to say:

"At Driving Ambition I am not just another number."

— **David Hedges**

"I can remember the day that I applied for a job here. We talked about my concerns of the amount of work available and the ability to trust what is being told to me by the dispatchers. Here I am 4 years later with no thought what so ever of leaving. It doesn't get any better than this!"

— **Fred Franks**

"Since working for DA I have worked for a wide variety of companies, doing a wide variety of work, and driving a wide variety of vehicles. I have gained more experience in a short amount of time than I could have at almost any other job."

— **Greg Marshall**

"The freedom I have here is wonderful...dispatchers are great to deal with. I am happy to be part of the team at Driving Ambition."

— **Jeff Krider**

"I'm treated with respect, I'm known by first name, my opinion matters, and my ideas are accepted."

— **Jim Wampler**

"I've been treated with great respect by dispatch and management. . . this is a company that cares about its drivers."

— **Lucas Hendricks**

"Flexibility to start early or late and take a day off when you want."

— **Matt Tearney**

"Driving Ambition seems to put great faith in their employees. It's nice to see a company where pride seems to go with each position. Thanks for the stress-free environment."

— **Steve White**
